- 3-4 Tap the right heel in place. Step the right heel down taking the weight onto the right foot. (Weight is on the left foot. Tap the heel like you are impatiently waiting on someone.)

9-10 Step the right foot to the side. Squat down to the floor.

11-12 Slap the floor with either hand. Hop back up bringing both feet together and clap.

13-14 Touch the right toe to the side. Turn a half turn right stepping the right next to or across the left.

15-16 Touch the left toes to the side. Step or touch the left toes next to the right.

**NOTE: When you do count 16, it is okay to put weight on the left foot the first time.**

**Count 1 would turn into stomping the right forward and count 2 would then be a tap, but, make sure that the 2nd time count 16 is only a touch.**

The dance follows the lyrics of the song, so if you get lost at any point for over thinking, just listen to what Lenny Cooper is saying and that should get you back into it.... See y'all on the dance floor....
